

New SAILUN Commercial Ice

Latest generation studded van tyre delivering high safety on snow and ice.

the SMART choice:

Introduction

Commercio Ice delivers robust and secure traction in diverse winter conditions, boasting enhanced handling and braking capabilities. Its cutting-edge design includes protective stud borders that adeptly absorb tiny ice fragments, preventing them from reaching the spikes and minimizing the risk of dislodgement. Crafted from hardened steel, the new studs are seamlessly integrated into the rubber tread, ensuring a secure fit and mitigating the possibility of stud loss. With a focus on uniform wear, both the tires and studs are designed to maintain consistent performance, providing optimal grip and reliability on icy surfaces at all times.

High Mileage

Superb mileage performance in the harshest Winters thanks to our innovative Nordic compound. Tread grooves are designed with interconnected ribs to improve overall load bearing capabilities and tread block hardness.

Safety and durability

Specially selected robust studs made from hardened-steel for maximum safety on ice and snow surfaces.
Directional tread pattern for better handling in slush and snow. The robust sidewall design safeguards for the tyres core to withstand impacts and resist tearing.

Performance and traction

New compound technology improves braking and produces exceptional traction in low winter temperatures. Tread pattern and contour is designed for improve noise cancellation delivering a more comfortable drive.

Tread pattern designed for improve noise cancellation delivering a more comfortable drive

Specially selected robust studs made from hardened-steel for excellent braking on icy surfaces. Including protective stud borders.

Tread grooves are designed with interconnected ribs to improve overall load bearing capabilities and tread block hardness.

The robust sidewall design safeguards for the tyres core to withstand impacts and resist tearing.
